"Thompson Cigar promised to place the first order for cigar cases once I launched my own company."

ABHIK ROY

The man and his passion

Brought up in a family of academicians, it was during Abhik Roy's tenure with a multinational company that a chance meeting with Robert Franzblau in 2000 at the Ambiente Trade Fair in Frankfurt, Germany, turned out to be a decisive moment.

Franzblau, founder-president of America's oldest mail order cigar company, Thompson Cigar, promised to place the first order for cigar cases once Roy launched his own company.

Roy returned with a renewed gusto and quit his salaried job and became a full-fledged entrepreneur. He always believed that if you know the functionality of a product, the design becomes more or less apparent. This turned out to be his *raison de succès*.

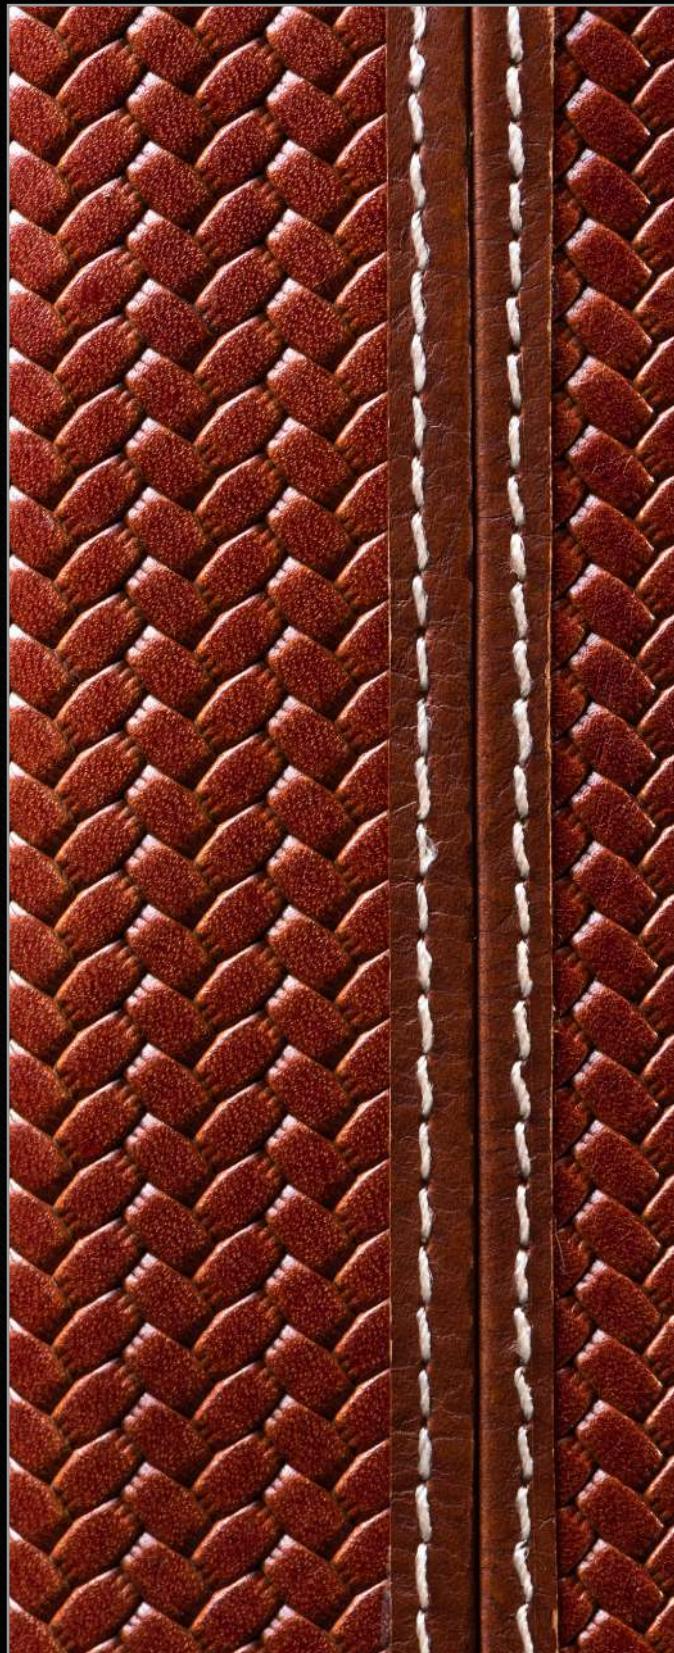

Cigar Cases

Andre Garcia revolutionised the world of cigar cases with its St James Collection, Pack & Go, Manhattan, the Golf and Buffalo Horn Collection, for which Roy has a patent.

Andre Garcia brand's guiding principle is one size does not fit all. Roy pioneered a spectrum of sizes to accommodate anything from a short trip, for which one might like a solo smoke, to a party, at which one intends to offer cigars to all the guys.

Striving for multiplicity, Andre Garcia crafted 1-, 2-, 4-, 5-, 6-, 8-, 10-, 16- and 20-finger cases in various designs, leather grains, dimensions, and colors, as well as widths and lengths.

St.
James
Collection

**The St. James Collection
accommodates a cutter, a
lighter and a humidification.**

Perhaps the most innovative case on the market, here is a case that combined not only space for cigars, but also for accessories! The cigar section is a telescoping case with space for 6-16 cigars, depending on model, with a zip-around section on the top to keep your lighter, cutter and other accessories handy and in one place. You can choose from both smooth leather finishes, a weaved style and a crocodile-style finish, all in multiple colors.

Manhattan Collection

This line of cases offers a choice of sizes, for four, six or ten cigars in various leathers with a zip-around top to keep your cigars easy to access. There are smooth and crocodile-style finishes, plus a combination case called the Latte Mistro Collection. It's a specially styled case that takes the zip-around format and adds a top of Buffalo horn for an extra touch of class.

The Manhattan Collection features a unique zipper enclosed top as an alternative to the typical leather from which the top simply slides off.

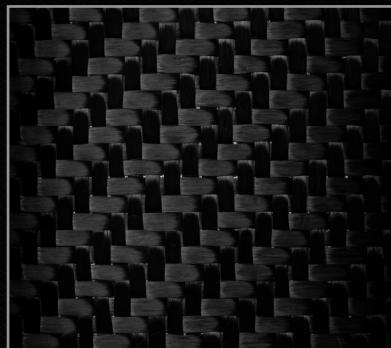

Buffalo Horn Collection

Here's a series of hard-leather, two or three-finger cases in a variety of finishes: smooth leather in multiple colors, woven leather, Croco or Ostrich patterns. Each sliding case can accommodate cigars of various lengths in hard-shell protection, including the most densely packed suitcase. And the top of each telescoping case has a hard, Buffalo horn top in a marvelous, glossy finish that makes each one unique.

Each piece is hand made with a crush-resistant aluminum shell, genuine cedar wood inner lining, and an exterior of leather and genuine carbon fiber. This high-tech material consists of extremely thin fibers bonded together in hexagonal aromatic rings, which are incredibly strong for their size. Several thousand carbon fibers are twisted together to form a yarn that's woven into a fabric, combined with epoxy, and molded to form composite reinforced sheets that are tough but very lightweight. The cases are available in two- and three-finger capacity models.

Pack & Go

ANDRE GARCIA

From the first glance, it can't be differentiated from an upscale executive tote with an adjustable handle and removable shoulder straps. But the inside reveals finest space with breathing Spanish cedar-lining and organized collapsible wooden dividers plus additional compartments offering space for the essentials a good smoking ritual requires. Both the understated plain black leather case, and the confidence-requiring crocodile print enhanced case is crafted to last generations of discerning aficionados.

Cigars

In 2007, Andre Garcia began importing cigars specifically for the Indian market and became the first company in a century to do so. Its range of cigars is quite extensive, starting from small cigarillos to Churchill size. It has more than 15 select blends and its best-selling ones are the Pigtail, Torpedo, Shortie and Churchill. These now find a pride of place at cigar lounges of the Taj and Marriott Group of hotels.

CHURCHILL

Does a Cigar speak! This Andre Garcia Churchill does. It greets you with a multitude of finely blended flavours of rich coffee, cocoa with roasted coffee bean. The back palate continues to be nice with hint of pepper and a woody taste.

SHORT CHURCHILL

This is an exceptional Cigar in flavour draw and smoothness. It's a full bodied cigar with hints of spice, cocoa and cedar. Perfect pair with a Cognac.

SHORTIE

"A flavoursome yet mild and favourable experience. Smooth draw and even burning the cigar was indeed full of pleasant flavours and good smoke for 45 mins."

TORPEDO

Torpedo is a super smoke. Starts with coffee and cedar and develops into a complex yet consistent smoke. It's a perfect burn right to the finish.

"If you are the kind of person who treasures his cigars more than anything else, you must try an expensive cigar container. Cigars can be fussy products to store and they need the right humidity and air to remain fresh and aromatic."

ABHIK ROY

PIGTAIL

The Andre Garcia Pigtail is cigar is rolled into a thicker robusto size, boasting an impressive 56 ring gauge. The flavor profile is about as complex as I've ever had the pleasure of smoking. It starts off rich and spicy with hint of coffee before transitioning to notes of sweet spice, vanilla, and cedar and coffee towards the middle. The construction is impeccable, with an open draw, an even burn, and a tremendous amount of meaty smoke.

A GLOBAL IMPRINT

ANDRE GARCIA'S PREMIUM LEATHER CIGAR CASES BECAME AN INSTANT HIT. IN ITS FIRST YEAR, ANDRE GARCIA MANAGED TO SELL 1.6 LAKH CIGAR CASES!

ANDRE GARCIA
